CONCEPT

PERSEVERANCE. PERFORMANCE. PERFECTION.

At Acrysil, these three pillars of progress are instilled in our DNA. The 3Ps have helped us lay a strong foundation for a big leap forward.

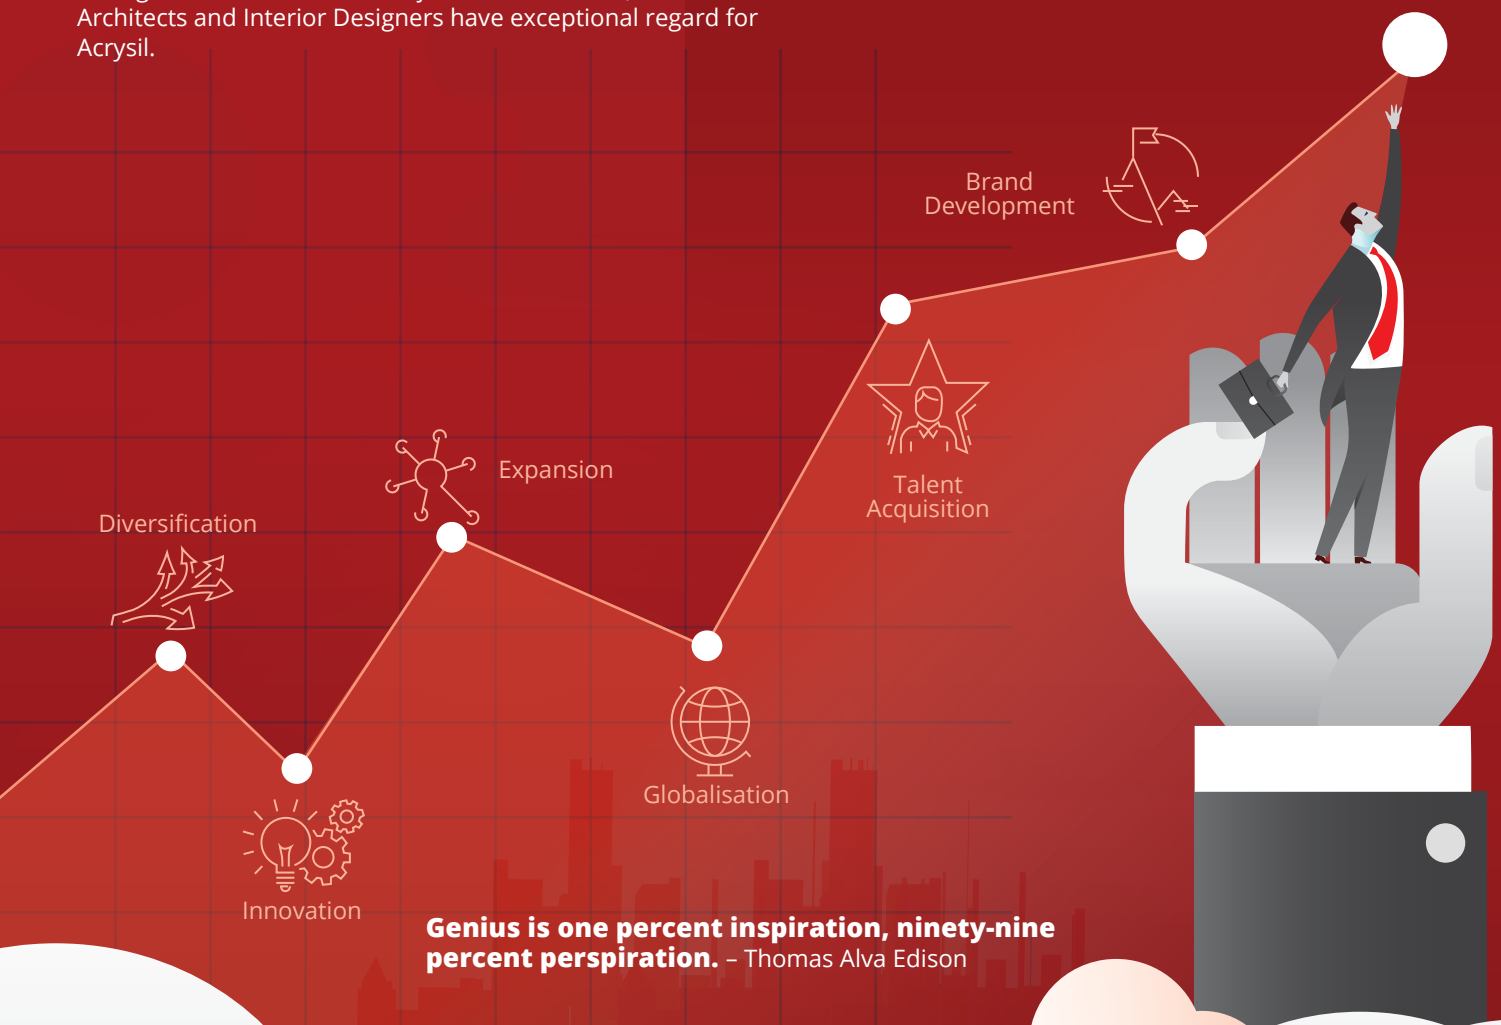

We firmly believe that delivering growth demands a clear strategy, effective execution, penchant for excellence as well as investment of time. Over the 31 years of our existence, we have been persevering every second, to move ahead towards achieving excellence in whatever we do. Our products are created at the intersection of design innovation and engineering excellence. Each product, be it a sink or a faucet, is artfully thought-out, pragmatically engineered and flawlessly brought into form.

The larger goal is to amplify the power of everyday essentials so as to enhance the overall quality of life, elevate the joy of living, as well as perk up the daily grind.

As important it is to boost sales, it is equally important to ensure unmatched product quality. It is this mindset that has helped Acrysil inch ahead to become bigger, better and stronger as an institution. Not just Home Owners, but also Architects and Interior Designers have exceptional regard for Acrysil.

We believe that we stand on a solid foundation and are geared to leapfrog to achieve our short-term (₹ 300 Cr.), medium-term (₹ 500 Cr.) and long-term goals (₹ 1000 Cr.). We are committed to achieve these goals by effective brand building, nurturing human capital, widening our global reach, expanding capacities, focusing on innovation and diversifying our portfolios.

We, at Acrysil, reiterate our commitment to cross the cusp of high growth and reaffirm our responsibility towards our investors, our employees, our customers and the community at large.

MESSAGE FROM CHAIRMAN EMERITUS

MR. ASHWIN PAREKH
Chairman Emeritus

“The only thing constant in the World is change. I am very happy with the positive changes and innovations taking place in the Company, both in processes and products. Introduction of new quality products by way of applying creativity and new technology are great assurance that Team Acrysil, with Chirag Parekh as leader, continues to carry forward the rich legacy. I am confident that as the rightful flag-bearer of our vision, Team Acrysil would continue to conquer newer and higher peaks.”

CHAIRMAN AND MANAGING DIRECTOR'S MESSAGE

*We are aiming to be
World's No.3 Quartz
Sink Manufacturer.*

MR. CHIRAG PAREKH

Chairman and Managing Director

Dear Shareholders,

For Acrysil, FY 2017-18 was yet another year of innovation, expansion and excellence.

We continued to introduce new products, expand our production capacity, enhance presence in foreign shores, and bring winning products to market; thereby maximising value for our Shareholders. This is a manifestation of implementation of strategic imperatives like delving into new possibilities, seizing new opportunities, embracing emerging trends, synergising strengths and pursuing perfection endlessly.

Within a span of over three decades, Acrysil has become a force to reckon within the Kitchen Appliance Industry. With customers spanning 43 Nations, we continue to hold the market's attention with intelligently-designed products that excel at the intersection of form, function and finesse. We have been steadily moving up the value chain and capturing the brand mind space of Niche Consumer Segments across all the categories we are present in, be it our Quartz Sinks, Stainless Steel Sinks, Wash Basins or Bath Fittings.

In the year under review, our growth strategy translated into healthy financial performance. Your Company posted a 64.62% increase in the Consolidated Earnings Per Share and a 53.5% rise in Consolidated Profit After Tax. Brand Sternhagen particularly performed extremely well, recording 83.5% increase in sales.

BRAND DEVELOPMENT

Acrysil prides itself in being the custodian of renowned brands – Carysil, TekCarysil and Sternhagen. Over the years, these brands have found a pride of place among the mind space of Influencers as well as Consumers. Carysil Quartz Sinks are sold to discerning Customers across the World. TekCarysil, featuring High-end Kitchen Sinks is synonymous with best-in-class design, style and quality. Sternhagen symbolises the pinnacle of luxury in design and engineering and is set to redefine the Luxury Bathroom Segment in India and beyond.

TALENT ACQUISITION

The key drivers of growth are our People. We are putting in place talent of the highest calibre and further nurturing their

talent with tools that can boost productivity. In the financial year, we conducted a slew of Employee Development Programs such as 'Kaizen' Training Session and Time Management Workshop.

GLOBALISATION

Our thrust on creating products par excellence bestows upon us the opportunity to cater to the Global Market with utmost confidence and success. Be it USA, UK, Germany, France, Canada, China, Far East or Gulf countries - our brands have strengthened their position across the Globe. In the financial year, we penetrated into five new markets, namely El Salvador, Italy, Mexico, Saudi Arabia and UAE. Going ahead, we remain committed to spread our footprint across 70 Countries.

EXPANSION

Changing consumer lifestyles, increasing Customer awareness, growing working population base, rising women workforce, growing personal disposable income levels, and availability of a number of financing alternatives – trends suggest that the Kitchen Appliance Market in India is expected to multiply manifold.

It is with this readiness that we at Acrysil reiterate our commitment to cross the cusp of high growth. Expanding our manufacturing capacity and distribution strength is vital towards reaching a higher growth trajectory. This year, we flagged off our capacity expansion process to raise the Quartz Sinks production by 25%. We have collaborated with 100 new dealers and also joined hands with Schock GmbH, Germany for exclusive distribution of Kitchen Sinks in India. We stand strong in fast-tracking the pace of growth. While it took us two-and-a-half decades to clock its first ₹100 crore revenue, the second ₹100 crore revenue milestone was achieved in five years. Similarly, the third such milestone will be recorded soon.

Going ahead, we look forward to introduce a series of new products. TekCarysil plans to launch a super-premium range of Sinks and Appliances, which will complement the specifications of modular kitchens. We will also launch an economical range for the Hotel Segment under Sternhagen.

INNOVATION

In a design-driven industry like ours, thinking out of the box is a prerequisite. Our focus has been in being innovative across all the stages of design, product development, manufacturing and marketing. Our brands concentrate on constantly reimagining the Kitchen and Bathroom experience for the user and focus on finer nuances by using and inventing new materials and technologies that ally art to engineering.

In the financial year, our teams triggered some disruptive innovations in the Market. We became the First Company in the World to execute moulding of a 90° Apron Sink made of composite quartz. We also began the manufacturing of 3D composite Wall Tiles, becoming the First Company in Asia and the Second Company in the World to do so.

DIVERSIFICATION

Acrysil has diversified into Stainless Steel Sinks, Faucets, Food Waste Disposer, and Kitchen Appliances like Hobs and Cook Tops, Oven, Wine Chillers, Dishwashers, etc. Through our wholly-owned subsidiary Homestyle Products Limited (HSL), UK we provide holistic kitchen solutions to our customers in the UK markets by offering faucets and other allied products over and above Quartz and Steel Sinks. Under the tutelage of Acrysil, HSL's turnover has turned around to GBP 4.5 million in FY18 from GBP 2 million when we acquired it in FY15. Acrysil prides itself in being one of the few Indian companies in the Industry to acquire a foreign company only to boost its performance.

With a comprehensive growth strategy in place, we stand affirmative on strengthening our position in the Country as well as across the World.

In a rapidly changing business environment, what has remained constant is our focus on nurturing our relationship with our Investors, Customers, Influencers, Distributors, Employees and Community.

I thank you all for supporting us in our journey.

CHASING PERFECTION. WINNING HEARTS.

MANUFACTURING CAPACITY

Designs which are born out of purpose and nurtured with perfection are bound to thrive, even in a fiercely competitive market. At Acrysil, this philosophy resides at the heart of our strategy from concept to craft. Every product of Acrysil is a perfect mix of form, function and finesse; a result of extensive research, contemporary design, constant innovation, engineering excellence and pursuit of perfection. This manifests in our products winning hearts of Consumers and Influencers alike.

Acrysil is the Pioneer in Composite Quartz Technology in India and is one of the Largest Producers of Granite Kitchen Sinks in the World.

The year in review saw Acrysil chart new benchmarks, introduce new products and initiate capacity expansion. Mentioned in the adjoining page is a snapshot of the Milestones achieved by the Company across various verticals.

QUARTZ SINKS

We launched a number of new products and variants. In the US market, we launched the much sought-after Apron Sinks. Acrysil offers Apron Sinks in six vivid colours in composite quartz and is the first in the World with the distinction of creating a 90° Quartz Sink. We also launched a new range of York Sinks and introduced Schock Range under the TekCarysil Brand.

We are in the process of raising the Manufacturing Capacity of Quartz Sinks by 25%. This will help us manufacture 5,00,000 sinks per annum instead of 4,00,000 sinks per annum.

STAINLESS STEEL SINKS

During the year, we launched innovative products such as Micro Radius Sink and Square Sink. Both these products leverage latest technology and adhere to global standards. In addition, our acquisition of a distribution firm in the UK is providing a much needed boost to our Stainless Steel Sink Segment.

In 2014, when Acrysil marked its entry in the UK Market by acquiring Homestyle Products Ltd., the business, principally engaged in the marketing of Kitchen Sinks, was traversing a challenging growth path. However, our team put in efforts to not just turn around the Company financially but also re-establish its brand reputation. As of FY18, Homestyle achieved a turnover of GBP 4.5 million which is a significant feat. The financials notwithstanding, Acrysil prides itself of being one of the few Indian companies in the industry to acquire a foreign company only to resurrect its pride of place.

KITCHEN APPLIANCES

Acrysil's Hoods, Chimneys, Hobs, Cook Tops, Microwave Ovens, Food Waste Disposers, Wine Chillers, etc. make their presence felt across the Kitchen Appliances Segment. Addition of Barebeque Grillers to our Kitchen Appliances Portfolio is next in line.

PRODUCT-WISE REVENUE FY18

BATHROOM SUITES

From the stable of wholly-owned German Subsidiary – Acrysil GmbH – Sternhagen has among its offerings Sani-Q, a patented high-tech quartz material with silk finish for sanitaryware as well as Wall Tiles. It has won 52 international awards, including the most prestigious Red Dot Award. In the Financial Year, we added a new range of Opal Washbasin and WC to our product offerings for bathrooms.

NEW GEOGRAPHIES. NEW MILESTONES.

KEY HIGHLIGHTS

- Presence in 43 Countries
- Highest sales ever in China
- New Markets: El Salvador, Italy, Mexico, Saudi Arabia, UAE

The power of the aesthetic is more than meets the eye. The aesthetics of everyday life elevates the joy of living, enhances the quality of life and adds verve to the daily routine. This power of everyday aesthetics when fused with purpose and perfection provides the Product an invincible value proposition.

Leveraging this proposition, Acrysil is rapidly moving towards a higher growth trajectory. By offering the Market a contemporary and sophisticated range of Kitchen Fittings, Accessories and Appliances which is not just well-conceptualised but also well-crafted, we are becoming a brand of choice for the discerning customers. Thereby, we are strengthening our position in the geographies we are present in as well as spreading our wings in new markets.

In the financial year, we set our foot in five new markets - El Salvador, Italy, Mexico, Saudi Arabia and UAE. We clocked our highest sales ever in China, as well as improved our reach in the US, the Company's biggest market. Over and above the quintessentially strong markets, we also continued to expand in the Emerging Markets. While the Sternhagen Brand was launched in the Middle East, the Carysil brand entered two new geographies, Australia and Africa. This growth story has reinforced our confidence in attaining leadership position in key markets such as the US.

Chairman and Managing Director, Acrysil Group, Mr. Chirag Parekh with CEO, Schock GmbH, Mr. Ralf Boberg

Acrysil has joined hands with Schock GmbH, Germany for exclusive distribution of Kitchen Sinks in India under the Brand TekCarysil to penetrate the domestic market. Schock, being a global leader in Quartz Composite Industry and Acrysil being no. 1 in the Indian Market and the only manufacturer of Quartz Kitchen Sinks with Schock Technology, provide huge potential for the products in India.

In India, where every third person in the City today is a youth, the audiences are evolving and so is their spending capacity, aspirations as well as aesthetic sense. The demand and the desire to seek Home Appliances which are high on luxury, quality and functionality are expected to increase rapidly. This trend poses a huge opportunity for Acrysil as we have the mind, the muscle and the wherewithal to harness the growing consciousness among the Potential Buyers.

One of the product segments which is gaining momentum in India is Built-in Kitchen Appliances. Growing consumer expenditure on luxury goods, increasing working women population, increasing construction of premium apartments, coupled with an increasing number of distributors and expanding retail formats is expected to boost consumer adoption over the next five years. The Market of Built-in kitchen appliances in India is projected to grow at a CAGR of over 23% during 2016-2021.

In the Overseas Market, major markets are switching over to Quartz Sinks due to the increasing popularity of Undermount Sinks across all geographies. Be it Kitchen Appliances, Kitchens Sinks or Bathroom Suites, Acrysil is better placed to tap the trend set by Europe and the US, which is getting transferred to Asia and Oceania.

Having served our markets for over three decades, we predict the evolving taste as well as emerging trends well beforehand and continually innovate to exceed expectations of the Customers. This not just helps us to stay ahead of the demand curve but also set new industry trends. In the coming years, we aim a business footprint in 70 Nations across the Globe.

DISTRIBUTOR NETWORK

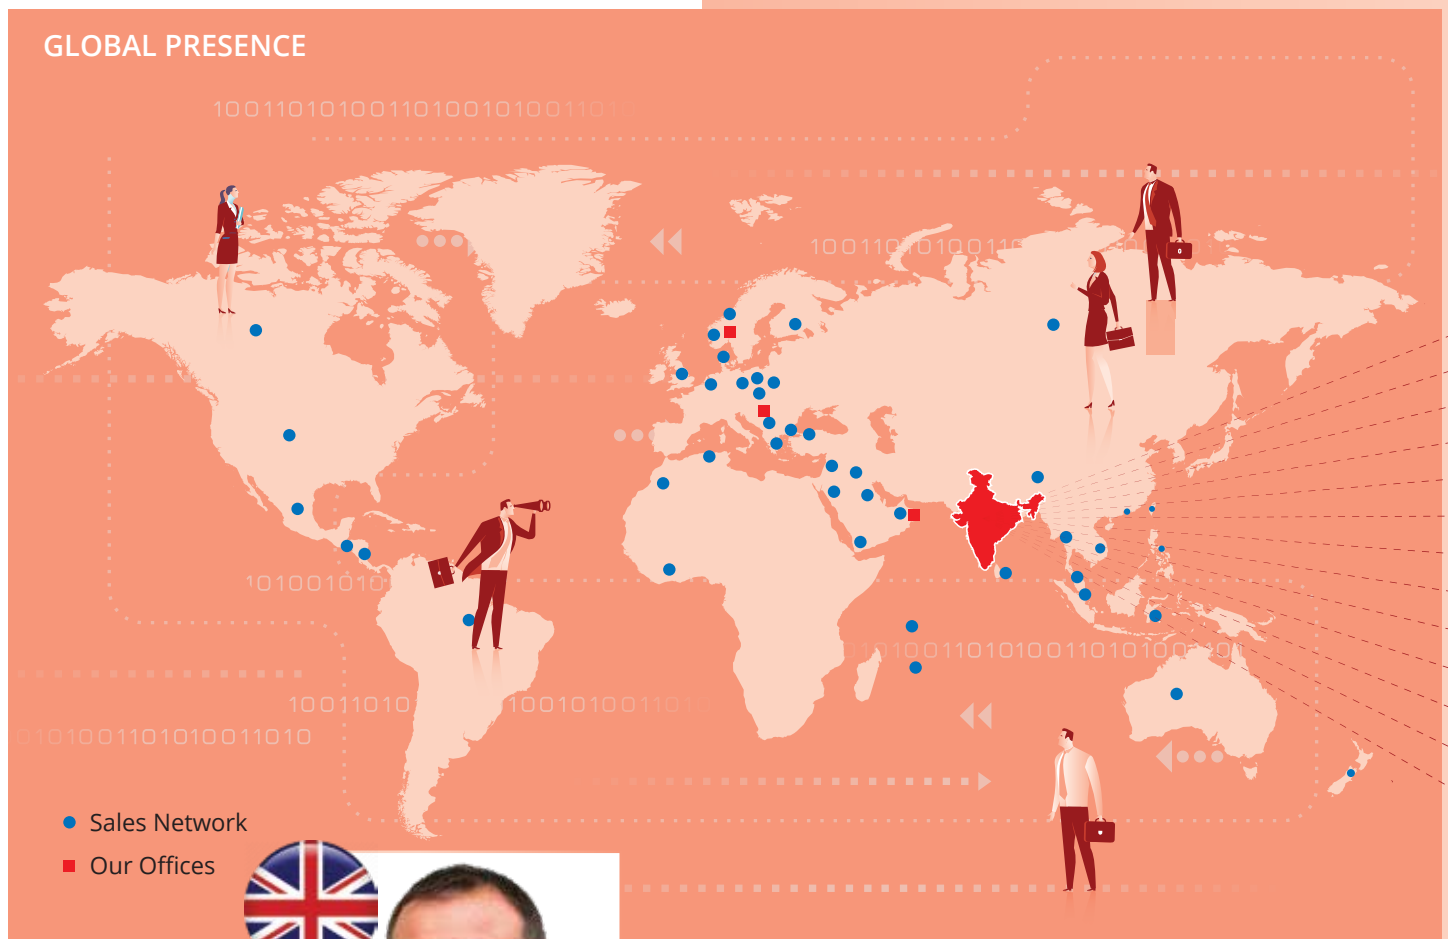

DEALER NETWORK

ACROSS THE NATION. AROUND THE WORLD.

GLOBAL PRESENCE

Acrysil is the Only Company in Asia and among a few companies worldwide to manufacture Quartz Kitchen Sinks in line with global standards of quality, durability and visual appeal.

HOMESTYLE UK

Acrysil acquired 75% stake in Homestyle Products Ltd., UK in 2014. We have raised our stake in Homestyle to 98.75% and have acquired the company through our wholly-owned subsidiary Acrysil UK Limited.

The Company is in the business of importing and marketing Kitchen Sinks, primarily in the UK Market and deals in Faucets and Allied Products to provide holistic solutions to its Customers.

Homestyle has achieved a turnover of GBP 4.5 million during FY18.

The acquisition has helped Acrysil grow its own line of production in the UK market. As of today, we sell Quartz Sinks, Steel Sinks, Taps & accessories and other traded products under the Homestyle Brand. In fact, geography-wise, UK accounts for more than one-fifth of our revenues from international operations.

INDIA PRESENCE

GEOGRAPHY-WISE REVENUE FY18

Acrysil, through its Brands Carysil, TekCarysil and Sternhagen, have a presence in 43 Countries across continents of North America, Europe, Asia, Africa and Australia.

In the Domestic Market, we have around 1300 Dealers, 65 Franchise Shops, 65 Galleries, 80 Distributors and five offices. In the financial year, we reinforced our distribution strength by collaborating with around 100 new Dealers.

In line with International Certifications

Acrysil products are compliant with IAPMO, a recognised Plumbing Certification instituted in the US. All Acrysil products sold in developed as well as mature markets of the US and Canada are compliant to this certification including the Company's Wash Basins. In Canada, the Canadian Standard Association, or CSA, has certified our Kitchen Sinks.

Innovation is as an enabler of progress. It empowers us to introspect, adapt, evolve and thereby drive efficiencies at the intersection of form, function, quality and affordability.

The ability to think afresh, tap into the untapped opportunities, rely on small ways that add to the big picture and execute the unimaginable is one of the most defining traits of Acrysil.

Innovation serves as the backbone to Acrysil's businesses and goes beyond just product design. It also pertains to altering business strategies, redefining operational practices and adapting to evolving trends in order to achieve better products and services.

Following is a glimpse of innovations carried out in some of our products, processes and packaging.

Ensuring innovation at every step of the Product Development is elemental towards achieving 'Mission Zero Rejection'.

PROCESS EXCELLENCE

- We have automated the Machining Process by introducing state-of-the-art machines and specialised diamond tools harmonised with a wet cutting system. This has helped us raise the bar to the global scale of manufacturing and substantially improve the quality of Sinks. The specialised cutting helps cater to the Customer demands with ease.
- Our innovation in mould making technology has enhanced the lifecycle of the mould manifold. This has seen us produce Sinks faster to keep up with the demand schedule of Customers and cut down costs, as breakdown time of moulds is now nearly negligible.

PRODUCT EXCELLENCE

- We hold the distinction of being the first company in the World to execute the moulding of a 90° Apron Sink made of composite quartz.
- Our Sternhagen Brand has secured 'Sani-Q', a patented high-tech quartz material to take bathroom design to a new level. Its unique attributes makes Sani-Q a material par excellence for applications needing outstanding resistance, easy maintenance and longevity.
- Acrysil has tied-up with a leading Hungarian Company to manufacture 3D Composite Wall Tiles, becoming the First Company in Asia and second company in the world to do so.

PACKAGING EXCELLENCE

Packaging plays an important role in providing a holistic product experience to the Customers and reinforcing a positive brand imagery. Acrysil serves global audience across geographies and product preferences. Our packaging norms therefore confirm to the protocols of the International Safe Transit Association (ISTA), USA and serve our Customers with ISTA 1, ISTA 2A, ISTA 3A and ISTA 6 compliant packaging, in line with the nature of the product.

NEW MARKETS. NEW PLATFORMS.

In an increasingly shrinking world, quality permeates through boundaries. Within a span of just over three decades, we have become a brand to reckon with – and more importantly, a name to depend on.

We understand that the leap towards a larger global platform will be challenging. After all, the Consumer today is more aware and discerning than ever before. But we are confident of turning this challenge into an opportunity through our holistic growth approach:

1. Offer better quality and more intelligently designed products
2. Enhance brand recall value
3. Target the right market

We continue to remain more strategic, rather than tactical in our approach. And we believe in creating brand equity through both above and below-the-line branding. So, while we remain aggressive in our advertising, we also

- Sponsor events that celebrate superior design and engineering
- Conduct strategic interactions with a gamut of stakeholders ranging from Dealers, Distributors, Architects, and Interior Designers to Consultants

- Support several trade conferences across India and global markets

This year too, Acrysil's multi-brands participated in various international exhibitions to showcase its products and their unique strengths. This included the Big 5 construction trade fairs in Dubai and Morocco, the Expo Nacional Ferretera of Mexico; as well as the IIID in Delhi and Indore.

We believe that to meet the right people, one needs to be at the right place at the right time – not by serendipity, but by intent and design. We took our Brand Sternhagen to the most discerning of Customers, by hosting the prestigious Sternhagen Ten Goal Tournament at Mahalaxmi Race Course in Mumbai. This presence at one of the most premier Polo Tournaments in the Country helped us create brand space in the minds of some of our most elite Customers.

While traditional media like print and OOH continue to be in our promotion mix, we are also actively testing the digital medium to cater to the online audience. We have collaborated with one of the largest e-commerce platforms (Amazon). We also showcase our product portfolio through Showrooms and Galleries.

- Held Blood Donation Camp and Health Check-up Camp
- Celebrated 'World Yoga Day' and 'World Environment Day'

GOOD NEIGHBOUR. RESPONSIBLE CITIZEN.

An organisation thrives in vibrant and progressive social environment. Both are interdependent and responsible for each other's growth story. At Acrysil, we believe in good corporate citizenship. We continuously endeavour to be a 'good neighbour' that any community would want in the 'neighbourhood'.

Our CSR Committee comprises three members of the Board. The Chairman of the Board is the Chairman of the CSR Committee, with two Independent Directors as Members. The core focus areas of Acrysil's CSR initiatives in FY18 were: Health, Literacy Promotion and Youth Development through Sports.

HEALTH

The Government of India continues to give prominence to cleanliness and sanitation as means of ensuring better social health. We are playing our part in ensuring that the villages surrounding our areas of operation in Gujarat have better access to sanitation facilities. The aim is to provide toilet blocks to households that do not have sanitation facilities.

In FY17, we identified the village of Kardej in Bhavnagar district as an ideal village for our sanitation project. Out of 1280 households in the village, there were 270 homes without an in-house toilet facility. In FY17, we constructed 123 sanitation blocks while in FY18, we added 24 more. There are still 123 households remaining that will be addressed in the times to come.

LITERACY PROMOTION

India has a huge demographic advantage in the sense that today majority of Indian are below the age of 30. But in order to leverage this advantage, it is imperative that the adolescents and youth have access to education. Acrysil has been contributing towards the continuation of Rotary Club of Bhavnagar's 'Ray of Hope' Programme. 'Ray of Hope' is a Permanent Child Care and Literacy Promotion Project started in 1998, where children from slums between the age group of 5 to 12 are given education through evening classes. In 2017-18, many children received education through Ray of Hope.

YOUTH DEVELOPMENT THROUGH SPORTS

Sports play a key role in youth development – be it by promoting team building, increasing physical stamina or enhancing concentration and individual performance. This year too, Acrysil conducted the Cycle Polo Training Camp at Bhavnagar in March 2018. A total of 280 youth took part in this training.

Since 2014-15, Acrysil has spent more than the mandatory 2% of average profit on CSR activities.

SOUND FUNDAMENTALS. SHARPER FOCUS.

One cannot plan for the future, without learning from the past. The last three years have been tumultuous – both in terms of macro-economics, as well as global political scenario. The fruits of a minor recovery shown in FY18 have been threatened by rising protectionism by large economies and an impending trade war between two of the World's biggest trading nations – the US and China. Despite these ominous undertones, most economists expect global business to grow at a marginally higher rate than last year.

India, on its part, continues its onward journey, backed by the massive demographic dividend, decisive government policies, and hunger for organic growth. India has overtaken France to become the sixth largest economy and may become the Third Largest Economy by 2030. Multilateral and reputed Economic Institutions have predicted a continued GDP growth of around or above 7% for at least a decade for India.

As for our business, we expect the Global Kitchen Sink Market to grow at a CAGR of 4.76% till 2021, resulting in a market size of little over USD 34 billion. Some estimates put just the Luxury Plumbing Fixtures Market size is estimated to exceed USD 26 billion by 2024 (Research Report by Global Market Insights, Inc.)

This augurs well for a brand like Acrysil that has presence in 43 Nations. Our portfolio comprising high-quality Quartz and Stainless Steel Sinks would help us penetrate the Market further. Our investments in innovation, R&D and design upgradation are also showing encouraging results. Our modern and technologically advanced manufacturing facility and processes can rationalise production costs by up to one-tenth. Our Quartz Sinks, with revolutionary steel moulding in Quartz have gained wide acceptance globally. To build on these inherent strengths, we are in the process of raising the Manufacturing Capacity of Quartz Sinks by 25%.

THE ACRYLIL PORTFOLIO

We are keen on enhancing our Domestic Kitchen Appliances market that is expected to have a CAGR of 10% up to 2023. More so because this would cater to the rising number of upwardly mobile families that remain young at heart.

We intend to open the world of luxury and world-class quality bathrooms to Indian Consumers. We already have Sternhagen as an established Luxury Brand for bathroom interiors in both domestic and international markets. Sternhagen's Sani-Q, a patented high-tech quartz material with silk-finish sanitaryware as well as highlighter tiles, has won design awards as well as Customers' hearts.

FINANCIAL OUTLOOK

Our growth path continues to see a healthy upward trajectory and we are breaking new grounds every passing year in terms of turnover. With all cogs in the right place – ranging from Manpower to Innovation, R&D, Sourcing and Branding & Servicing – we are on the right path and our momentum is strong.

- 9) All the documents referred to in this notice are open for inspection by the members at the Registered Office of the Company on all working days except Saturdays, Sundays and public holidays, during 11.00 a.m. to 4.00 p.m. up to the date of the Annual General Meeting.
- 10) (a) The Company has decided to close the Register of Members and the Share Transfer Register from **Friday, September 21, 2018 to Thursday, September 27, 2018 (both days inclusive)** for determining the names of members eligible for dividend on Equity Shares, if declared at the Meeting.
(b) The dividend on Equity Shares, if declared at the Meeting, will be credited/dispatched between **Thursday, October 11, 2018 to Saturday, October 20, 2018** to those members whose names shall appear on the Company's Register of Members or on records of National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) as beneficial owners as **on Thursday, September 20, 2018**.
- 11) As per SEBI Circular No. CIR/MRD/DP/10/2013 dated March 21, 2013, listed companies are required to use, either directly or

through their RTA, any RBI approved electronic mode of payment like ECS, NECS, NEFT etc. for distribution of dividends or providing other cash benefits to the investors. Accordingly, the members, holding shares in physical form, are requested to update their address or provide / update their bank mandate (including details of MICR, IFSC etc.) with the Company or its Registrars & Transfer Agents (RTA), Bigshare Services Private Limited and members holding shares in dematerialized form are requested to intimate any change in their address or to change / update bank mandate with their Depository Participants (DP) to enable the Company or RTA for making arrangements for electronic credit of dividend and other cash benefits to members.

- 12) Members holding shares in dematerialized form are requested to intimate all changes pertaining to their bank details, National Electronic Clearing Service (NECS), Electronic Clearing Service (ECS), mandates, nominations, power of attorney, change of address, change of name, E-mail ID, contact numbers, etc., to their Depository Participant (DP). Changes intimated to the DP will then be automatically reflected in the Company's records which will help the Company and the Company's Registrars and Transfer Agents (RTA), Bigshare Services Private Limited, to provide efficient and better services. Members holding shares in physical form are requested to intimate such changes to the Company or its RTA, Bigshare Services Private Limited.
- 13) The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN to their Depository Participants with whom they are maintaining their demat accounts.
- 14) Pursuant to Section 72 of the Companies Act, 2013, members holding shares in physical form may file nomination in the prescribed Form SH-13 and for cancellation / variation in nomination in the prescribed Form SH-14 with the Company's RTA. In respect of shares held in electronic/demat form, the nomination form may be filed with the respective Depository Participant.
- 15) Members who hold shares in physical form in multiple folios in identical names or joint holding in the same order of names are requested to send the share certificates to RTA, for consolidation into a single folio. The share certificates will be returned to the members after making requisite changes thereon.
- 16) Non-Resident Indian members are requested to inform the RTA, immediately of:
 - a) Change in their residential status on return to India for permanent settlement.
 - b) Particulars of their bank account maintained in India with complete name, branch, account type, account number and address of the bank with pin code number, if not furnished earlier.
- 17) To support the 'Green Initiative', members who have not registered their E-mail addresses so far, are requested to register their E-mail ID with the RTA /depository participant(s) for receiving all communication including annual report, notices, circulars, etc. from the company electronically.
- 18) Members desirous of obtaining any information concerning accounts and operations of the Company are requested to address their questions in writing to the Company (Email: cs.al@acrysil.com) at least 7 days before the date of the AGM so that the information required may be made available at the AGM.**
- 19) The Company has connectivity from the CDSL & NSDL and Equity Shares of the Company may also be held in the electronic form with any DP with whom the members/investors are having their depository account. The ISIN No. for the Equity Shares of the Company is INE482D01016. In case of any query/difficulty in any matter relating thereto may be addressed to the RTA.
- 20) Trading in the shares of the Company is compulsorily in dematerialized form for all investors. Dematerialisation would facilitate paperless trading through state-of-the-art technology, quick transfer of corporate benefits to members and avoid inherent problems of bad deliveries, loss in postal transit, theft and mutilation of share certificate and will not attract any stamp duty. Hence, we request all those members who have still not dematerialised their shares to get their shares dematerialized at the earliest.
- 21) The members who have not encashed their Dividend Warrants for any previous period are requested to send the same for revalidation to the Company's Registrars and Transfer Agent (RTA).

Members wishing to claim dividends for previous financial years, which remain unclaimed, are requested to correspond with the RTA.

During the year, the Company has requested those members, whose dividends for previous financial years remaining unclaimed / unpaid, for claiming said dividend amount before transfer thereof to Investor Education and Protection Fund (IEPF). During FY 2017-18, the Company has transferred 37054 equity shares to the demat account of IEPF Authority.

Members are requested to note that dividends not encashed or claimed within seven years from the thirty days of declaration of dividend, will, as per Section 124 of the Companies Act, 2013, be transferred to the IEPF.

Pursuant to the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (IEPF Rules), the Company has uploaded the information in respect of the unclaimed dividends as on the date of the 30th AGM held on 20th September, 2017 on its website www.acrysilcorporateinfo.com and also on the website of the Investor Education and Protection Fund www.iepf.gov.in.

Further, provisions of Section 124 of the Companies Act, 2013 read with Rule 6 of IEPF Rules as amended, *inter alia*, mandates the Company to transfer all such shares, in respect of which dividend have not been paid or claimed for seven consecutive years or more, to the demat account of IEPF Authority.

- 22) The Notice of the AGM along with the Annual Report 2017-18 is being sent by electronic mode to those members whose E-mail ID's are registered with the Company/Depositories, unless any member has requested for a physical copy of the same. For members who have not registered their E-mail ID's, physical copies are being sent by the permitted mode under the Provisions of the Companies Act, 2013.
- 23) In compliance with the provisions of section 108 of the Companies Act, 2013 read with the Rules made there under, and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is pleased to provide to its members the facility to exercise their right to vote on resolutions proposed to be considered at the Annual General Meeting (AGM) by electronic means and the business may be transacted through remote e-voting services provided by Central Depository Services (India) Limited (CDSL).

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economy Overview

Global

Global economic activity showing recovery with the world economy growing at 3.7% in CY 2017 supported by recovery in developed economies like United State, European Union and Japan. However, growth in Non-OECD markets, remain modest.

According to IMF world economic outlook update January 2018, Global economic activity continues to firm up. Global output is estimated to have grown by 3.7 percent in 2017, which is 0.1 percentage point faster than projected in the fall and ½ percentage point higher than in 2016. The pickup in growth has been broad based, with notable upside surprises in Europe and Asia. Global growth forecasts for 2018 and 2019 have been revised upward by 0.2 percentage point to 3.9 percent. The revision reflects increased global growth momentum and the expected impact of the recently approved U.S. tax policy changes.

The cyclical upswing underway since mid-2016 has continued to strengthen. Some 120 economies, accounting for three quarters of world GDP, have seen a pickup in growth in year-on-year terms in 2017, the broadest synchronized global growth upsurge since 2010. Among advanced economies, growth in the third quarter of 2017 was higher than projected in the fall, notably in Germany, Japan, Korea, and the United States. Key emerging market and developing economies, including Brazil, China, and South Africa, also posted third-quarter growth stronger than the fall forecasts. High-frequency hard data and sentiment indicators point to a continuation of strong momentum in the fourth quarter. World trade has grown strongly in recent months, supported by a pickup in investment, particularly among advanced economies, and increased manufacturing output in Asia in the run up to the launch of new smartphone models. Purchasing managers' indices indicate firm manufacturing activity ahead, consistent with strong consumer confidence pointing to healthy final demand.

China`s progress has also had global implications. In 2017, the country`s imports accounted for 10.2 percent of the world`s total imports of merchandise, while its exports made up 12.8 percent. This has made China a major trade partner of more than 120 countries and regions, according to data attributed to the WTO in a white paper issued in June under the title "China and the World Trade Organization."

The stronger momentum experienced in 2017 is expected to carry into 2018 and 2019, with global growth revised up to 3.9 percent for both years (0.2 percentage point higher relative to the fall forecasts).

For the two-year forecast horizon, the upward revisions to the global outlook result mainly from advanced economies, where

growth is now expected to exceed 2 percent in 2018 and 2019. This forecast reflects the expectation that favorable global financial conditions and strong sentiment will help maintain the recent acceleration in demand, especially in investment, with a noticeable impact on growth in economies with large exports. In addition, the U.S. tax reform and associated fiscal stimulus are expected to temporarily raise U.S. growth, with favorable demand spillovers for U.S. trading partners—especially Canada and Mexico—during this period. The expected global macroeconomic effects account for around one-half of the cumulative upward revision to the global growth forecast for 2018 and 2019,

According to the World Bank, Global growth rate after reaching 3.1 percent in both 2017 and 2018, it is expected to moderate over the next two years as global slack dissipates, major central banks gradually remove policy accommodation, and the recovery in commodity exporters matures. Progress in per capita income growth will be uneven across emerging market and developing economies, and generally insufficient to tackle extreme poverty in Sub-Saharan Africa. The outlook is subject to significant downside risks, including the possibility of disorderly financial market movements, escalating trade protectionism, heightened policy uncertainty, and rising geopolitical tensions. To confront these risks and bolster long-term growth, policymakers need to rebuild policy buffers and accelerate reforms to boost competitiveness, adapt to technological change, and promote trade openness. Trade has been robust, but is expected to moderate, as the recovery in capital spending wanes. A faster-than-expected rise in global interest rates, combined with a renewed strength of the U.S. dollar, have contributed to tighter external financing conditions and moderating capital inflows in emerging market and developing economies (EMDEs). In this context, investors have become increasingly focused on country-specific exposures to rising borrowing costs and currency pressures. Commodity prices—particularly oil—are also higher than previously expected, mainly reflecting supply-side considerations.

Growth in EMDEs is projected to gain further strength, reaching 4.5 percent in 2018 before stabilizing at 4.7 percent in 2019-20 as the recovery in commodity exporters matures. Growth in commodity exporters is expected to increase to 2.5 percent in 2018 and to average 3.0 percent in 2019 and 2020, as investment growth plateaus and output gaps close. Growth in commodity importers is projected to remain broadly stable in 2018-20, averaging 5.8 percent, as a structural slowdown in China is offset by a moderate pickup in the rest of the group.

Growth prospects for EMDEs remain favorable over the forecast horizon but may not be sufficient to ensure rapid poverty alleviation, particularly in Sub-Saharan Africa. In that region, per

capita income growth is projected to reach 1 percent by 2020, significantly lower than the EMDE average of 3.5 percent. In contrast, per capita income growth is expected to reach 6 percent in South Asia, which is the region with the second largest number of extreme poor.

India

The economy appears well positioned for FY 2018, which started in April, after the highest GDP growth in seven quarters was recorded in the January–March period. In June, business activity in the private sector increased for the fourth consecutive month, and at the fastest pace since October 2016. The manufacturing and service sectors both benefited from a substantial increase in output thanks to broad-based demand. Moreover, in May, industrial production expanded at a healthy pace. On 4 July, the government approved an increase in the minimum support prices paid to farmers growing summer-sown crops this year. The increase should provide farmers with a profit of 50% over the cost of crop production.

According to OECD report, Growth is increasing, making India the fastest-growing G20 economy. Investment and exports, supported by the smoother implementation of the new goods and services tax (GST), are becoming major growth engines. Inflation will hover within the target band, with upside risks reflecting rising oil prices and an increase in housing allowance for public employees. The current account deficit will increase. Job creation in the formal sector will remain sluggish, leaving the vast majority of workers in low-productivity, low-paid activities.

Fiscal and monetary policies are projected to remain broadly neutral. To reduce the relatively high public debt-to-GDP ratio, containing contingent fiscal liabilities is key, including through better governance of public enterprises. Better risk assessment in banks would allow allocating financial resources to the best projects and avoiding a new increase in non-performing loans. Investing more in education and training, combined with a modernization of labour laws, would help create better jobs and make growth more inclusive.

According to IMF's World Economic Outlook Update, India's growth is projected to accelerate to 7.7 % in 2018-19, from 7.2 % forecast for 2017-18.

Industry Overview

Kitchen Sinks Industry

The Quartz Kitchen Sinks industry largely falls under the lifestyle category globally and the market is dominated by three long established multinational giants who account for nearly 70% of the market. Acrysil is among the select few manufacturers of Quartz Kitchen Sinks in the world and has the distinction of being the only one from Asia. Acrysil continues to be the dominant player in this segment in India though it does have

limited competition from a few major multinationals entering growing domestic market.

These exquisite Kitchen sink of rock hard material in beautiful colours look great, have curvaceous appeal, simple to clean and reveal nothing but lasting beauty that can resist scratches and safe in contact with food.

Kitchen sinks are not just plumbing fixture it is now transforming to kitchen luxury item. Indian market is changing and demanding more modern, stylish, matching with stone, more colourable, and upwardly mobile consumers are demanding top of the line sinks that are not just utilitarian but also made from more durable and premium materials like composite quartz (generally referred to as Quartz sinks). The demand from the commercial and hospitality sector has also increased at a rapid rate.

The global market for Kitchen Sinks is expected to reach about \$3429.46 million by 2021 from \$2718.59 million in 2016, registering a Compounded Annual Growth Rate (CAGR) of 4.76% during the analysis period, 2016-2021. Annual estimates and kitchen sinks market forecasts are provided for the period 2016 through 2021. Also, a six-year historic analysis is provided for these markets. The other major market for Indian Quartz sinks is the EU region with Germany, UK, France, Sweden and Italy being the top markets, accounting for almost one third of the total quartz sinks export from this country. (Source: Dun & Bradstreet)

Kitchen Appliances

Your Company diversifies in the Kitchen Appliances segment with a wide range of product categories. The product categories broadly consist of Chimneys, Hobs, Cooktops, Microwave Ovens, Food Waste Disposer, Wine Chillers, Ice Makers etc. The market for these products is shared amongst organized national branded players, regional players and unorganized players.

The kitchen appliances market in India is expected to continue growing on account of expanding base of middle class and affluent consumers, increasing working population and improving consumer lifestyle. India has a large base of young consumers who form majority of the workforce and hardly find time for traditional cooking due to their busy schedules, thereby creating huge demand of kitchen appliances with modern amenities and appliances thereby giving a tremendous boost to the kitchen appliances segment. This segment is evolving rapidly and Acrysil has made a foray and is optimistic of becoming a very significant player in this segment.

Acrysil's entry into this segment has been most encouraging and with its capabilities in innovation, research and

development and design, the company is aiming at becoming a major player in this segment.

Operational review

Quartz Sinks

Acrysil has been steadily increasing its production capacity of Quartz sinks to meet the growing demand and to benefit from economies of scale. Its Quartz sinks manufacturing capacity has multiplied several times from 30,000 sinks per annum in FY93 to 400,000 sinks per annum in FY17.

Company is in process of increasing further production capacity from 400,000 sinks per annum to 500,000 sinks per annum in current financial year. The new facilities includes new building, molds, plant & machinery, utilities and other ancillary and preparatory equipment's. During the year, the company introduced new models. The Company also developed sinks in new colours as per the requirements of its export consumers.

Acrysil's quartz sinks with steel moulding, a revolutionary product incorporating steel moulding in Quartz for the first time, has also started making waves as the product is introduced in different markets in the world.

During the year, the company extended its global footprint to several new markets including countries like El Salvador, Italy, Mexico, Saudi Arabia and UAE. In neighbouring China, we have clocked the highest sales ever. The major growth in exports came from the North American market and with 15 new models developed for consumers in Middle East, UK, and Scandinavian countries, Acrysil looks forward to accelerating its growth in these markets.

The total sales of Quartz sinks increased by 12.41% from 267038 Nos. in FY17 to 300187 Nos. in FY18. The total Quartz sinks exports during FY18 stood at ₹ 101.52 crore while domestic sales accounted for Rs. 28.67 crores.

Stainless Steel Sinks

Unlike most stainless steel sink manufacturers, Acrysil caters to the high-end segment willing to pay a premium for superior quality, design and finish.

The Company expects to make a dent in this market as well with its innovative products and new technology like micro radius and square sinks. The acquisition of a distribution company in the UK which out sources stainless steel sinks and sells to the top consumers in that country will also give a major boost to export of stainless steel sinks.

During the year under review, the domestic sale of stainless steel sinks is stood at ₹ 14.47 Crores as against ₹ 12.13 Crores in FY18.

Kitchen Appliances

Acrysil forayed into kitchen appliances with the objective of

becoming a one stop kitchen lifestyle brand. The Company has a diversified line of kitchen appliances which includes faucets, hoods and chimneys, hobs and cook tops, ovens and microwave ovens, food waste disposers and wine chillers. It also added a few more products like cooking ranges to its portfolio. Equipped with a strong basket of products of premium design and quality, the company expects to capture a larger market share in this segment.

The total sales of Kitchen appliances in the domestic market in FY18 stood at Rs. 12.85 Crores as against Rs. 11.83 Crores in FY 17.

Quartz Wash Basins and 3D Tiles

Acrysil launched quartz wash basins and 3D tiles in FY 16. These innovative products captured the imagination of discerning consumers. In the Current year, the Company sold Wash Basins nos 747 as against 458 in FY 17 with an aggregate value of ₹ 98.27 lakhs as against 61.25 lakhs in FY 17 and 3D tiles nos 19321 as against 9471 in FY 17 amounting to around ₹ 41.76 lakhs as against 15.04 lakhs in FY 17.

Sternhagen Bathroom Suites

The Company had launched a range of Sternhagen luxury brand for bathroom interiors, for both domestic as well as international markets in FY 17.

Sternhagen is a premium brand from Germany, owned by Acrysil GmbH, the Company's wholly owned German subsidiary. The brand caters to fast growing market of premium sanitary ware, fittings and highlighter tiles. It has won 52 international awards, including the most prestigious Red Dot Award. In FY 18 we added new range of Opal washbasins and WC to our product offerings for bathrooms.

Allying art to engineering, Sternhagen keeps reinventing the sacred bathroom rituals, and created the first fully complete bathroom suite concept. Distinguished by artistic designs, elemental shapes and well-defined silhouettes, the contemporary classic suites provide refined and luxurious solutions that emphasis the collection's cutting edge propriety materials, technology and minimal styling, brimming with unique details. From visually exciting tiles, to artistic sanitary ware, sensorial showers and matching accessories, every detail has been curate to bring the Artistic Suite experience to life.

Pushing the boundaries of a conservative market, Sternhagen aims to go above and beyond products, offering instead a lifestyle to clients wishing their bathrooms could be visually exciting and design driven without sacrificing quality.

Sternhagen has developed Sani-Q, a patented high-tech quartz material with silk finish, for its sanitary ware and highlighter tiles. The manufacturing process gives the product a far greater finesse than traditional material and allows the creation of very

delicate forms and shapes. The products are cast in specially developed machines, to achieve accuracy and dimensional precision. Sani-Q is CE and IAPMO certified and since it is not brittle and made of quartz, it has excellent durability. The designs have been developed by a veteran German product designer. The wash basins have been introduced in four nature inspiring exclusive designs and are available in two metallic colours. The premium highlighter tiles come in as many as 8 shades.

To expand its bathroom product line further, Acrysil has developed full bathroom concepts and launched the whole range of bathroom products including, fittings, WCs, etc. Acrysil's Sternhagen bathroom suites will take bathroom designs to a new level and to showcase this, the company is opening 'Sternhagen Suites', across the country with its authorized dealership partners. The Suite displays will showcase the Sternhagen range of products and serve as an experience centre for prospective consumers.

Acquisition of additional stake in Home style Products Ltd

The Company had acquired additional 3.75% stake in Home style Products Ltd (HSL) through its wholly owned subsidiary Acrysil UK Ltd, increasing its total stake in HSL from 95% to 98.75%. HSL is in the business of importing and marketing kitchen sinks primarily in the UK market and deals in faucets and allied products to provide holistic solutions to its consumers. HSL had achieved turnover of GBP 4.51 million (PY 3.88 million) during FY 18. The acquisition has helped Acrysil to grow its own line of products in the UK market.

Brand Building And Marketing

Acrysil lays great focus on the brand building and marketing and invests sizable amounts in these activities.

The Company does this by aggressive advertising on television, sponsoring events and holding meetings of dealers and distributors, franchisees, architects, interior decorators and consultants and road shows and conferences in various cities in India and several parts of the world.

The Carysil brand is exemplary, not just when it comes to functional fulfillment, they are designed to deliver much more. Similarly, the Sternhagen brand Acrysil's bathroom products are unique in many respects. Not only are Sternhagen products extremely durable as they are made out of high strength composite quartz but they also incorporate technology and designs that take the whole bathroom experience to a new level.

The Company lays great emphasis on retention of its human talents. The Company invests in human resources intangibles from time to time by providing on the job training, in-house and external training programs and workshops related to technical/functional, behavioural/ general and health and safety ISO certification standards, etc., which motivates employee productivity and skills. Competitive remuneration is awarded to employees on a timely basis and the Company ably maintains amicable industrial relations at plant. As at March 31, 2018, the total workforce of the Company, stood at 236 employees.

R&D

Innovation is the culture of Acrysil and we always try to improve from what we are and where we should be to satisfy and make our customer joyous. We at Acrysil had made innovation in

mould making technology which will improve the sink making cycle, sink's overall quality and also enhanced mold life cycle. This will also help us producing sinks on time and customer delivery dates with almost nil breakdown time of molds.

The success of product also depends considerably on the type and kind of packaging. Since we serve a wide range of Geography and their material handling habits our sinks should reach safely to the destinations / end user. Our goal is to be the most preferred sink manufacturer by ensuring economical and product safe packaging. Acrysil had developed ISTA (International Safe Transit Association, USA) compliant packaging and serving the customers with ISTA 1, ISTA2A, ISTA 3A and ISTA 6 compliant packaging. ISTA 6 is the latest packing whose Test Protocols had been developed by ISTA, USA and safe for individual sink supply by courier or overnight services to individual customer home.

In total we have introduced 15 new moulds in the year 2017-18 to cater the new expectations of our valued customers across the Globe.

During the year, we have developed Apron sinks in composite Quartz for USA market due to its unique properties of manufacturing in vivid colours, hard to scratch, stain resistance, thermal shock resistance and heat resistant up to 240 Degree Celsius. Apron sinks which is also known as Farm House sink, we developed in 6 colours and becoming very popular in US market.

In order to increase the range of 3D composite tiles we have added Pent tile. Its hexagonal design with 3D effect is becoming the Architects and Interior Decorators first choice in 8 stunning colours.

To cater increased composite quartz wash basin requirements from US Market we have added a new wash basin "YORK". It is a very elegant oval design and getting popular not only in US but in Indian Market too.

Similarly, in the area of appliances, the company is marketing switch- free and feather touch chimneys and other innovative products. Each of these innovations is the outcome of efforts that are oriented towards improved and uniquely designed products that exceed customer expectations and deliver great value.

Outlook

Acrysil has prospered because it has shown a clear sense of purpose and is committed to core values. From a single product company, Acrysil has evolved and today, its portfolio has a wide range of products for kitchens and bathrooms. Its products enjoy global acceptance and reflect the company's philosophy of offering only a truly inspirational product which is a lifestyle

accessory, a designer's dream and a homemakers' pride Acrysil is now firmly entrenched on the path of rapid growth. It has surged ahead with a CAGR of 18% over the last five years and has drawn up business plans to accelerate its growth. The multipronged growth strategy includes increasing its market share in countries where it has gained a foothold, and aggressively seeking out new markets for export. In the domestic market, plans include setting up of another 10 exclusive 'Carysil' galleries in FY19. Simultaneously, the Company will introduce new models and designs to stay ahead of the competition. Increasing purchasing power, higher aspirations, growing population and rapid urbanization, will accelerate the demand of Acrysil's products and drive growth in the years ahead.

Risks and Concerns

Technological Obsolescence

Acrysil operates in an ever evolving and dynamic technology environment and the Company continuously reviews and upgrades its technology, resources and processes lest it faces technology obsolescence.

Competition

Acrysil faces competition not only from India based companies but increasingly from multinational companies. Acrysil's differentiation strategy incorporating its unique business approach has led to its emerging as a leader in the rapidly growing lifestyle kitchen products industry. To remain competitive, Acrysil has developed competencies in various technologies and offers a wide range of cutting edge technology products to consumers based on their needs.

Exchange Rate Risks

The global financial position continues to remain volatile with wide swings in currencies impacting the industry. This trend is expected to continue during the year too. The company is exposed to risks from market fluctuations of foreign exchange and price fluctuation on its finished goods. Acrysil has taken proper precautions to protect its payable and forecast revenues against foreign currency fluctuations.

Rising Costs

The undulating prices of vital raw materials result in pressure on margins. Rising prices of resources make it a challenge for the Company to reduce material costs. Due to its niche position in many of its products, it is able to use its economies of scale and purchasing power to limit the pressures of increasing input costs.

Adequacy of Internal Control Systems

Acrysil's internal control systems and procedures adhere to

industry standards in terms of effective resource utilisation, operational efficiency and financial reporting. They also comply with various relevant laws and regulations.

The Company has established proper and adequate systems of internal control to ensure that all resources are put to optimum use and are well protected against loss, and that all transactions are authorized, recorded and reported correctly and there is proper adherence to policies, guidelines and processes in terms of efficiencies and effectiveness.

The Company has an internal audit system which ensures that adequate processes, systems and internal controls are implemented, and these controls are commensurate with the size and operations of the company and transactions are executed in accordance with policies and authorization.

The company has a business planning system to set targets and parameters for operations which are reviewed with actual performance to ensure timely initiation of corrective action, if required.

INDEPENDENT AUDITORS' REPORT

To

The Members of

ACRYSIL LIMITED

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Acrysil Limited ("the Company") which comprise the Balance Sheet as at 31st March 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements to give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in the equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules 2015 under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act and the rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those

Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give true

and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2018 and of the profit (including other comprehensive income), its cash flows and changes in equity for the year ended on that date.

Other Matters

The financial information of the Company for the year ended 31st March, 2017 and the transition date opening balance sheet as at 1st April, 2016 included in these standalone Ind AS financial statements are based on the previously issued financial statements for the years ended 31st March, 2017 and 31st March, 2016 prepared in accordance with the Companies (Accounting Standards) Rules, as applicable, which were audited by the predecessor auditors, on which they had expressed their unmodified opinion dated 25th May, 2017 and 23rd May, 2016 respectively. The adjustments to those financial statements for the differences in the accounting principles adopted by the Company on transition to the Ind AS have been audited by us. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India terms of sub-section (11) of section 143 of the Act, we give in the Annexure – A, a statement on the matters specified in clause 3 and 4 of the Order, to the extent possible.
2. As required by section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

ANNEXURE – B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 (g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

We have audited the internal financial controls over financial reporting of **Acrysil Limited** ("the Company") as of 31st March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based

on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that -

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects an adequate internal financial controls system over financial

reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential

components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

COMPANY INFORMATION

Acrysil Limited ("the Company") is a public limited company domiciled in India and incorporated on 19th January, 1987 under the provisions of the Companies Act applicable in India. The Company is engaged in manufacturing and trading of Quartz Kitchen Sinks, Stainless Steel Kitchen Sinks, Bath Products, Tiles, Kitchen Appliances and Accessories. The registered office of the Company is located at B-307, Citi Point, J B Nagar, Andheri-Kurla Road, Andheri (East), Mumbai - 400 059. The equity shares of the Company are listed on the Bombay Stock Exchange (BSE).

The standalone Ind AS financial statements ("the financial statements") were authorized for issue in accordance with the resolution of the Board of Directors on 29th May, 2018.

1 BASIS OF PREPARATION, MEASUREMENT AND SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of preparation and measurement:

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 and the Companies (Indian Accounting Standards) Rules, 2015, as applicable.

The financial statements for the year ended 31st March, 2018 are the first financial statements prepared by the Company under Ind AS. For all periods up to and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India immediately before adopting Ind AS. The financial statements for the year ended 31st March, 2017 and the opening Balance Sheet as at 1st April, 2016 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's balance sheet, statement of profit and loss and statement of cash flows are provided in note 1.3 d.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements, including the

preparation of the opening Ind AS Balance Sheet as at 1st April, 2016 being the date of transition to Ind AS. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Company considers 12 month period as normal operating cycle.

The Company's financial statements are reported in Indian Rupees, which is also the company's functional currency.

1.2 Significant accounting policies:

a. System of accounting

The Company follows mercantile system of accounting and recognises income and expenditure on an accrual basis except in case of significant uncertainties. These financial statements are prepared under the historical cost convention unless otherwise indicated.

b. Key accounting estimates

The preparation of the financial statements, in conformity with the recognition and measurement principles of Ind AS, requires the management to make estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognised in the period in which they are determined.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

c. Property, plant and equipment

- (i) Property, plant and equipment are stated at historical cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/installation of the assets less accumulated depreciation and accumulated impairment losses, if any.
- (ii) Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the statement of profit and loss as incurred.
- (iii) The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognised in the statement of profit and loss.
- (iv) Capital work-in-progress, representing expenditure incurred in respect of assets under development and not ready for their intended use, are carried at cost. Cost includes related acquisition expenses, construction cost, related borrowing cost and other direct expenditure.
- (v) On transition to Ind AS, the Company has opted to continue with the carrying values measured under the previous GAAP as at 1st April 2016 of its property, plant and equipment and use that carrying value as the deemed cost of the property, plant and equipment on the date of transition i.e. 1st April 2016 except for certain class of assets which are measured at fair value as deemed cost.
- (vi) The Company depreciates property, plant and equipment on written down value method except for buildings, plant & equipment and dies & moulds where depreciation is provided on straight line method over the estimated useful life prescribed in Schedule II of the Companies Act, 2013 from the date the assets are ready for intended use after considering the residual value.

(vii) Intangible assets mainly represent implementation cost for software and other application software acquired/developed for in-house use and design and property rights of the Company. These assets are stated at cost. Cost includes related acquisition expenses, related borrowing costs, if any, and other direct expenditure.

(viii) Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

d. Investments and financial assets

(i) Investments in subsidiary companies

Investments in subsidiary companies is recognised at cost and not adjusted to fair value at the end of each reporting period. Cost represents amount paid for acquisition of the said investments.

The Company assesses at the end of each reporting period, if there is any indication that the said investments may be impaired. If so, the Company estimates the recoverable value of the investments and provides for impairment, if any, i.e. the deficit in the recoverable value over cost.

Upon first-time adoption of Ind AS, the Company has elected to measure these investments at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., 1st April, 2016.

(ii) Other investments and financial assets

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in the statement of profit or loss. In other cases, the transaction costs are attributed to the acquisition value of financial asset.

Financial assets are subsequently classified measured at –

- amortised cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition except if and in the period the Company changes its business model for managing financial assets.

Financial asset is derecognised only when the Company has transferred the rights to receive cash flows from the financial asset. Where the entity has transferred the asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, financial asset is derecognised.

In accordance with Ind AS 109, the Company applies the expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets and credit risk exposures. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition.

e. Inventories

- (i) Raw materials and stores and spares are valued at weighted average cost including all charges in bringing the materials to the present location.
- (ii) Finished and work-in-progress are valued at the cost plus direct expenses and appropriate value of overheads or net realizable value, whichever is lower.
- (iii) Obsolete, slow moving and defective inventories are written off/valued at net realisable value during the year as per policy consistently followed by the Company.

f. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprises of balance with banks and cash on hand and short term deposits with an original maturity of three month or less, which are subject to insignificant risks of changes in value.

g. Trade receivables

A receivable is classified as a trade receivable if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade receivables are recognised initially at fair value and subsequently measured net of any expected credit losses.

h. Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs.

i. Financial liabilities

- (i) Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss.
- (ii) Financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Financial liabilities carried at fair value through profit and loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.
- (iii) Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

j. Trade payables

A payable is classified as a trade payable if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. These amounts are unsecured

and are usually settled as per the payment terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

k. Revenue recognition

- (i) Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of excise duty, value added tax (VAT) or goods and service tax (GST) as applicable and returns, discounts, rebates and incentives. The Company recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the Company.
- (ii) Domestic sales are accounted for on dispatch from the point of sale corresponding to transfer of significant risks and rewards of ownership to the buyer.
- (iii) Export sales are recognised on the date of the mate's receipt/shipped on board signifying transfer of risks and rewards of ownership to the buyer as per terms of sales and initially recorded at the relevant exchange rates prevailing on the date of the transaction.
- (iv) Export incentives are accounted for on export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are reasonably expected to be fulfilled.
- (v) Revenue in respect of other income is recognised on accrual basis. However, where the ultimate collection of the same lacks reasonable certainty, revenue recognition is postponed to the extent of uncertainty.

l. Excise Duty, Custom Duty and GST:

Excise duty (applicable till 30th June 2017) in respect of goods manufactured by the Company is accounted for at the time of removal of goods from factory for sale.

Purchased of goods and fixed assets are accounted for net of GST input credits. Custom duty paid on import of materials is dealt with in respective material accounts.

m. Foreign currency transactions

- (i) Items included in the financial statements are measured using the currency of primary

economic environment in which the company operates ("the functional currency"). The financial statements are presented in Indian Rupee (INR), which is the company's functional and presentation currency.

- (ii) Foreign currency transactions are initially recorded in the reporting currency at foreign exchange rate on the date of the transaction.
- (iii) Monetary items of current assets and current liabilities denominated in foreign currencies are reported using the closing rate at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.
- (iv) The gain or loss on decrease/increase in reporting currency due to fluctuations in foreign exchange rates are recognised in the statement of profit or loss.

n. Employee benefit expenses

- (i) Contributions to defined contribution schemes such as provident fund, employees' state insurance, labour welfare fund etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. These benefits are classified as defined contribution schemes as the Company has no further obligations beyond the monthly contributions.
- (ii) The Company provides for gratuity which is a defined benefit plan, the liabilities of which are determined based on valuations, as at the reporting date, made by an independent actuary using the projected unit credit method. Re-measurement comprising of actuarial gains and losses, in respect of gratuity are recognised in the other comprehensive income in the period in which they occur. The classification of the Company's obligation into current and non-current is as per the actuarial valuation report.
- (iii) The employees are entitled to accumulate leave subject to certain limits, for future encashment and availment, as per the policy

of the Company. The liability towards such unutilised leave as at the end of each balance sheet date is determined based on independent actuarial valuation and recognised in the statement of profit and loss.

o. Leases

A lease is classified at the inception date as a finance lease or an operating lease. Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. The Company has identified all its leases as operating leases.

Assets taken on operating lease

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

p. Borrowing costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Also, the effective interest rate amortisation is included in finance costs. Borrowing costs relating to acquisition, construction or production of a qualifying asset which takes substantial period of time to get ready for its intended use are added to the cost of such asset to the extent they relate to the period till such assets are ready to be put to use. All other borrowing costs are expensed in the statement of profit and loss in the period in which they occur.

q. Impairment of non financial assets

As at each reporting date, the Company assesses whether there is an indication that a non-financial asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, the Company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was

recognised, then the previously recognised impairment loss is reversed through the statement of profit and loss.

r. Taxation

Income tax expense comprises current tax expense and the deferred tax during the year. Current and deferred taxes are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used.

The carrying amount of deferred tax is reviewed at each reporting date and measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

s. Provisions and contingent liabilities

The Company creates a provision when there is present obligation, legal or constructive, as a

result of past events that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events. Contingent assets are neither recognised nor disclosed in the financial statements.

t. Earnings Per Share

(i) Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

(ii) For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

u. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the operating decision makers. The decision makers regularly monitor and review the operating result of the whole Company. The activities of the Company primarily falls under a single segment of "manufacturing and trading of kitchen sinks and other appliances" in accordance with the Ind AS 108 "Operating Segments".

1.3 First-time adoption of Ind AS:

a. Transition to Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies as set out in note no. 1.2

above have been applied in preparing the financial statements for the year ended 31st March 2018, the comparative information presented in these financial statements for the year ended 31st March 2017 and in the preparation of an opening Ind AS balance sheet as at 1st April 2016 (the transition date). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in the financial statements prepared in accordance with the Accounting Standards notified under the Companies (accounting Standards) Rules, 2006 and other relevant provisions of the Act. An explanation of how transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

b. Exemption and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS, which are considered to be material and significant.

(i) The Company has elected to measure items of property, plant and equipment at its Previous GAAP carrying value as on the date of transition to Ind AS except for certain class of assets which are measured at fair value as deemed cost.

(ii) Ind AS provides a one time option to a first-time adopter either to measure its investment in subsidiaries companies as per previous GAAP carrying value or at fair value on the date of transition. The Company has elected to measure its investment in subsidiaries as per previous GAAP carrying value as on the date of transition to Ind AS.

(iii) On assessment of the estimates made under the previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence of an error in those statements. However, estimates that were required under Ind AS but not required under previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

(iv) Under Ind AS, remeasurements of post-employment benefit obligations, i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expenses on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the Previous GAAP, these remeasurements were forming part of the statement of profit and loss for the year. There is no impact on the total equity.

(v) Under Ind AS, all items of income and expenses recognised in a period should be included in the statement of profit and loss for the period, unless a standard requires or permits otherwise. Items of income and expenses that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans and tax effects thereon. The concept of other comprehensive income did not exist under the Previous GAAP.

c. Recent accounting pronouncements

Standards issued but not yet effective

In March, 2018 the Ministry of Corporate Affairs (MCA) issued the Companies (Indian Accounting Standards) Amendments Rules, 2018, notifying Ind AS 115, Revenue from Contract with Customers, Appendix B to Ind AS 21, Foreign Currency transactions and advance consideration and amendments to certain other standards. These amendments are applicable to the Company from 1st April, 2018. The Company will be adopting the amendments from their effective date.

1) Ind AS 115, Revenue from Contract with Customers:

Ind AS 115 supersedes Ind AS 11, Construction Contracts and Ind AS 18, Revenue. Ind AS 115 requires an entity to report information regarding nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with customers. The principle of Ind AS 115 is that an entity should recognize revenue that demonstrates the transfer of promised goods and services to customers at an

amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard can be applied retrospectively to each prior reporting period presented or can be applied retrospectively with recognition of cumulative effect of contracts that are not completed contracts at the date of initial application of the standard.

2) **Appendix B to Ind AS 21, Foreign Currency Transactions and Advance Consideration:**

The Appendix clarifies that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the asset, expense or income (or part of it) is the date on which an entity initially recognises the non-monetary liability arising from the payment or receipts in advance consideration towards such assets, expenses or income. If there are multiple payments or receipts in advance, then an entity must determine transaction date for each payment or receipts of advance consideration.

The Company is in the process of making an assessment of these amendments.

d. Reconciliations between previous GAAP and Ind AS

The following reconciliations provide the explanations and quantification of the differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

- (i) Reconciliation of equity as reported under previous GAAP to Ind AS;
- (ii) Reconciliation of profit or loss and total comprehensive income as reported under previous GAAP to Ind AS; and
- (iii) Adjustments to statement of cash flows.

NOTES TO RECONCILIATION OF EQUITY AND STATEMENT OF PROFIT AND LOSS

- 1 The Company has considered fair value for property, viz. land as on transition date, i.e. 1st April 2016 with impact of ₹ 1,596.90 lakhs in accordance with stipulations of Ind AS 101 with the resultant impact being accounted for in the reserves.
- 2 Under Ind AS, security deposits are valued at present value as compared to being carried at cost in the previous GAAP. This adjustment includes the difference between the book value and the present value of an interest free security deposits or security deposits below market rate given to subsidiary companies. The interest on the present value of this loan is recognized over the tenure of the loan using the EIR method.
- 3 Under Ind AS, the Company recognized the provision for expected credit loss as per the Expected Credit Loss (ECL) policy of the Company as set out in accordance with Ind AS 101. Differences in the provisions are adjusted under trade receivables.
- 4 Consequential tax impact of the other Ind AS transitional adjustments lead to temporary timing differences. Deferred tax adjustments are recognized in correlation to the underlying transaction either in retained earnings or through comprehensive income.
- 5 Under Ind AS, loans are valued at present value as compared to being carried at cost in the previous GAAP. This adjustment includes the difference between the book value and the present value of an interest free loan or loan below market rate taken from a wholly owned subsidiary. The interest on the present value of this loan is recognized over the tenure of the loan using the EIR method.
- 6 The Company recognizes the cost related to its post employment defined benefit plan on an actuarial basis both under previous GAAP and Ind AS. Under previous GAAP, entire cost including actuarial gains and losses and return on planned assets are charged to profit or loss. Under Ind AS, the actuarial gains and losses and returns on planned assets are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income.
- 7 Under the previous GAAP, dividends proposed by the Board of Directors after the balance sheet date but before the approval of the financial statements by the shareholders were considered as adjusting events. Accordingly, provision for proposed dividend was recognized as liability. Under Ind AS, such dividends are recognized when the same is approved by the shareholders in the general meeting. Accordingly, the liability of proposed dividend and dividend distribution tax thereon, included under provisions has been reversed with corresponding adjustment to retained earnings.
- 8 There are no material adjustments of transition to the statement of cash flows to conform to Ind AS presentation for the year ended 31st March, 2017.

Financial risk management

The Company's activities expose it to credit risk, liquidity risk and market risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, financial assets and trade receivables	Credit ratings aging analysis, credit evaluation	Diversification of counter parties, investment limits, check on counter parties basis credit rating and number of overdue days
Liquidity Risk	Other liabilities	Maturity analysis	Maintaining sufficient cash/ cash equivalents and marketable securities
Market Risk	Financial assets and liabilities not denominated in INR	Sensitivity analysis	Constant evaluation and proper risk management policies

The Board provides guiding principles for overall risk management as well as policies covering specific areas such as foreign exchange risk, credit risk and investment of surplus liquidity.

A. Credit Risk

Credit risk refers to the risk of a counter party default on its contractual obligation resulting into a financial loss to the Company. The maximum exposure of the financial assets represents trade receivables and receivables from group companies and others.

In respect of trade receivables, the Company uses a provision matrix to compute the expected credit loss allowances for trade receivables in accordance with the expected credit loss (ECL) policy of the Company. The Company regularly reviews trade receivables and necessary provisions, whenever required, are made in the financial statements.

B. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet its commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial assets quickly at close to its fair value.

The Company manages liquidity risk by maintaining adequate reserves and banking facilities by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

Contractual maturities of significant financial liabilities are as follows :

(₹ in Lakhs)

Particulars	Less than or equal to one year	more than one year	Total

Trade payables	2,134.26	-	2,134.26
Other financial liabilities	306.25	-	306.25

C. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

The Company has several balances in foreign currency and consequently, the Company is exposed to foreign exchange risk. The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

b) Interest rate sensitivity:

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITORS' REPORT

To
**The Members of
ACRYSIL LIMITED**

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Acrysil Limited ("the Holding Company") and its wholly-owned subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement for the year then ended and the statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 under Section 133 of the Act. The respective Board of the Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the directors of the Holding Company, as aforesaid.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards

and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and other auditors in terms of their report referred to in Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries referred to below in the Other Matters paragraph, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company as at 31st March 2018 and of the consolidated profit (including other comprehensive income), its consolidated cash flows and consolidated changes in equity for the year ended on that date.

Other Matters

- (a) The consolidated Ind AS financial statements include financial statements of six subsidiaries which reflect total assets of 7031.22 Lakhs as at 31st March, 2018, total revenues of 6057.84 Lakhs and net profit after tax (including other comprehensive income) of

604.69 Lakhs for the year then ended, whose financial statements are audited by other auditors whose reports have been furnished to us by the management and our opinion on consolidated Ind AS financial statements in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the report of the other auditors.

- (b) The financial information of the Group for the year ended 31st March, 2017 and the transition date opening balance sheet as at 1st April, 2016 included in these consolidated Ind AS financial statements are based on the previously issued consolidated financial statements for the years ended 31st March, 2017 and 31st March, 2016 prepared in accordance with the Companies (Accounting Standards) Rules, as applicable, which were audited by the predecessor auditors, on which they had expressed their unmodified opinion dated 25th May, 2017 and 23rd May, 2016 respectively. The adjustments to those financial statements for the differences in the accounting principles adopted by the Group on transition to the Ind AS have been audited by us.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

- 1 As required by section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of subsidiaries incorporated in India as noted in the "Other Matters" paragraph above, we report, to extent possible, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated Ind AS financial statements;
 - In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books;
 - The Consolidated Balance Sheet, the Consolidated

Statement of Profit and Loss (including other comprehensive income), Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;

- In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act;
- On the basis of the written representations received from the directors as on 31st March 2018 and taken on record by the Board of Directors of the Holding Company and its subsidiaries incorporated in India, none of the directors of the Group is disqualified as on 31st March 2018, from being appointed as a director in terms section 164(2) of the Act.
- With respect to the adequacy of internal financial controls over financial reporting of the Holding Company and its subsidiary companies and operating effectiveness of such controls, our separate report in annexure – A may be referred.
- With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanation given to us:
 - The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer note no.31;
 - The Group did not have any material foreseeable losses on long-term contracts including derivatives contracts;
 - There has been no delay in transferring the amounts, required to be transferred to the Investor Education and Protection Fund by the Holding company or its subsidiaries incorporated in India.

ANNEXURE – A TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2018, we have audited the internal financial controls over financial reporting of Acrysil Limited ("the Holding Company") and its subsidiaries which are companies incorporated in India (the Holding Company and its subsidiaries together referred to as "the Group").

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiaries incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of

internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiaries incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that -

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries referred to below in the Other Matters paragraph, the Holding Company and its subsidiaries incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to subsidiaries incorporated in India, is based on the corresponding reports of the auditors of these companies. Our opinion is not modified in respect of this matter.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

COMPANY INFORMATION

Acrysil Limited ("the Company") is a public limited company domiciled in India and incorporated on 19th January, 1987 under the provisions of the Companies Act applicable in India. The registered office of the Company is located at B-307, Citi Point, J B Nagar, Andheri-Kurla Road, Andheri (East), Mumbai – 400 059. The equity shares of the Company are listed on the Bombay Stock Exchange (BSE).

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries (collectively, the Group) for the year ended 31st March, 2018.

The Group is engaged in manufacturing and trading of various types of kitchen sinks, bath products, tiles, kitchen appliances and accessories.

The consolidated Ind AS financial statements ("the financial statements") were authorized for issue in accordance with the resolution of the Board of Directors of the Company on 29th May, 2018.

1 BASIS OF PREPARATION, MEASUREMENT AND SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of preparation and measurement:

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 and the Companies (Indian Accounting Standards) Rules, 2015, as applicable.

The consolidated financial statements for the year ended 31st March, 2018 are the first financial statements prepared by the Company under Ind AS. For all periods up to and including the year ended 31st March, 2017, the Company prepared its consolidated financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India immediately before adopting Ind AS. The consolidated financial statements for the year ended 31st March, 2017 and the opening consolidated Balance Sheet as at 1st April, 2016 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's consolidated balance sheet, consolidated statement of profit and loss and

consolidated statement of cash flows are provided in note 1.4 d.

The consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1st April, 2016 being the date of transition to Ind AS. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Company considers 12 month as normal operating cycle.

Consolidated Financial Statements are presented in Indian Rupees (INR) which is the Group's functional currency.

1.2 Basis for consolidation:

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of the subsidiary companies used for the purpose of consolidation are drawn up to same reporting date as that of the parent company.

The consolidated financial statements present the consolidated accounts of the Company along with its following subsidiaries:

Entity	Proportion of Ownership Interest as at 31st March 2018
1 Acrysil Steel Limited	84.99%
2 Sternhagen Bath Pvt. Ltd.	84.90%
3 Acrysil Appliances Limited	100.00%
4 Acrysil GmbH, Köln – Germany	100.00%
5 Acrysil UK Limited – United Kingdom	100.00%
6 Home Style Products Limited –UK (a step-down subsidiary)	98.75%

The consolidated financial statements have been prepared on the following basis:

Subsidiaries

- a) A subsidiary is an entity over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company.
- b) The Company combines the financial statements of the parent and its subsidiary companies on a line by line basis, adding together like items of assets, liabilities, equity, income and expenses. Inter-company transactions, balances and unrealized gains on transactions among the Group are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries are consistent with the policies adopted by the Company.
- c) A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction. If the Company loses control over a subsidiary, it derecognizes the assets, liabilities, carrying amount of any non-controlling interests and the cumulative translation differences recorded in equity.

1.3 Significant accounting policies:

a. System of accounting

The Group follows mercantile system of accounting and recognises income and expenditure on an accrual basis except in case of significant uncertainties. These financial statements are prepared under the historical cost convention unless otherwise indicated.

b. Key accounting estimates

The preparation of the financial statements, in conformity with the recognition and measurement principles of Ind AS, requires the management to make estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income, expenses and

disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognised in the period in which they are determined.

The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

c. Property, plant and equipment

(i) Property, plant and equipment are stated at historical cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/installation of the assets less accumulated depreciation and accumulated impairment losses, if any.

(ii) Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the statement of profit and loss as incurred.

(iii) The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognised in the statement of profit and loss.

(iv) Capital work-in-progress, representing expenditure incurred in respect of assets under development and not ready for their intended use, are carried at cost. Cost includes related acquisition expenses, construction cost, related borrowing cost and other direct expenditure.

(v) On transition to Ind AS, the Group has opted

to continue with the carrying values measured under the previous GAAP as at 1st April 2016 of its property, plant and equipment and use that carrying value as the deemed cost of the property, plant and equipment on the date of transition i.e. 1st April 2016 except for certain class of assets which are measured at fair value as deemed cost.

- (vi) The Group depreciates property, plant and equipment on written down value method except for buildings, plant & equipment and dies & moulds where depreciation is provided on straight line method over the estimated useful life prescribed in Schedule II of the Companies Act, 2013 from the date the assets are ready for intended use after considering the residual value.
 - (vii) Intangible assets mainly represent implementation cost for software and other application software acquired/developed for in-house use and design and property rights of the Company. These assets are stated at cost. Cost includes related acquisition expenses, related borrowing costs, if any, and other direct expenditure.
 - (viii) Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.
- d. Goodwill

Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognised. Goodwill is initially measured at cost, being the excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed, measured in accordance with Ind AS -103 Business Combination.

Goodwill is considered to have indefinite useful life and hence is not subject to amortisation but tested for impairment at least annually. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

- e. Investments and financial assets

Financial assets are recognised when the Group

becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in the statement of profit or loss. In other cases, the transaction costs are attributed to the acquisition value of financial asset.

Financial assets are subsequently classified measured at –

- amortised cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition except if and in the period the Company changes its business model for managing financial assets.

Financial asset is derecognised only when the Group has transferred the rights to receive cash flows from the financial asset. Where the entity has transferred the asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, financial asset is derecognised.

In accordance with Ind AS 109, the Group applies the expected credit loss (“ECL”) model for measurement and recognition of impairment loss on financial assets and credit risk exposures. The Company follows ‘simplified approach’ for recognition of impairment loss allowance on trade receivables. Simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition.

- f. Inventories

- (i) Raw materials and stores and spares are valued at weighted average cost including all

charges in bringing the materials to the present location.

(ii) Finished and semi-finished goods are valued at the cost plus direct expenses and appropriate value of overheads or net realizable value, whichever is lower.

(iii) Obsolete, slow moving and defective inventories are written off/valued at net realisable value during the year as per policy consistently followed by the Group.

g. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprises of balance with banks and cash on hand and short term deposits with an original maturity of three month or less, which are subject to insignificant risks of changes in value.

h. Trade receivables

A receivable is classified as a trade receivable if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade receivables are recognised initially at fair value and subsequently measured net of any expected credit losses.

i. Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs.

j. Financial liabilities

(i) Financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss.

(ii) Financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Financial liabilities carried at fair value through profit and loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

(iii) Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

k. Trade payables

A payable is classified as a trade payable if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the entity prior to the end of the financial year which are unpaid. These amounts are unsecured and are usually settled as per the payment terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

l. Revenue recognition

(i) Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of excise duty (as applicable till 30th June, 2017), value added tax (VAT) or goods and service tax (GST) as applicable and returns, discounts, rebates and incentives. The Group recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the Company.

(ii) Domestic sales are accounted for on dispatch from the point of sale corresponding to transfer of significant risks and rewards of ownership to the buyer.

(iii) Export sales are recognised on the date of the mate's receipt/shipped on board signifying transfer of risks and rewards of ownership to the buyer as per terms of sales and initially recorded at the relevant exchange rates prevailing on the date of the transaction.

(iv) Export incentives are accounted for on export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are reasonably expected to be fulfilled.

(v) Revenue in respect of other income is recognised on accrual basis. However, where the ultimate collection of the same lacks reasonable certainty, revenue recognition is postponed to the extent of uncertainty.

m. Excise Duty, Custom Duty and GST:

Excise duty (as applicable till 30th June 2017) in respect of goods manufactured by the Group is accounted for at the time of removal of goods from factory for sale.

Purchased of goods and fixed assets are accounted for net of GST input credits. Custom duty paid on import of materials is dealt with in respective material accounts.

n. Foreign currency transactions

(i) Items included in the financial statements are measured using the currency of primary economic environment in which the company operates ("the functional currency"). The financial statements are presented in Indian Rupee (INR), which is the company's functional and presentation currency.

(ii) Foreign currency transactions are initially recorded in the reporting currency at foreign exchange rate on the date of the transaction.

(iii) Monetary items of current assets and current liabilities denominated in foreign currencies are reported using the closing rate at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

(iv) The gain or loss on decrease/increase in reporting currency due to fluctuations in foreign exchange rates are recognised in the statement of profit or loss.

o. Employee benefit expenses

(i) Contributions to defined contribution schemes such as provident fund, employees' state insurance, labour welfare fund etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. These benefits are classified as defined contribution schemes as the Company has no further obligations beyond the monthly contributions.

(ii) The Group provides for gratuity which is a defined benefit plan, the liabilities of which are determined based on valuations, as at the

reporting date, made by an independent actuary using the projected unit credit method. Re-measurement comprising of actuarial gains and losses, in respect of gratuity are recognised in the other comprehensive income in the period in which they occur. The classification of the Group's obligation into current and non-current is as per the actuarial valuation report.

(iii) The employees are entitled to accumulate leave subject to certain limits, for future encashment and availment, as per the policy of the Group. The liability towards such unutilised leave as at the end of each balance sheet date is determined based on independent actuarial valuation and recognised in the statement of profit and loss.

p. Leases

A lease is classified at the inception date as a finance lease or an operating lease. Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. The Company has identified all its leases as operating leases.

Assets taken on operating lease

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

q. Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. Also, the effective interest rate amortisation is included in finance costs. Borrowing costs relating to acquisition, construction or production of a qualifying asset which takes substantial period of time to get ready for its intended use are added to the cost of such asset to the extent they relate to the period till such assets are ready to be put to use. All other borrowing costs are expensed in the statement of profit and loss in the period in which they occur.

r. Impairment of non financial assets

As at each reporting date, the Group assesses

whether there is an indication that a non-financial asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, the Group determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through the statement of profit and loss.

s. Taxation

Income tax expense comprises current tax expense and the deferred tax during the year. Current and deferred taxes are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the tax laws of the respective countries. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used.

The carrying amount of deferred tax is reviewed

at each reporting date and measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the entity expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

t. Provisions and contingent liabilities

The Group creates a provision when there is present obligation, legal or constructive, as a result of past events that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events. Contingent assets are neither recognised nor disclosed in the financial statements.

u. Earnings Per Share

(i) Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Group by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

(ii) For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

v. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the operating decision makers. The decision makers regularly monitor and review the

operating result of the whole Group. The activities of the Group primarily fall under a single segment of “manufacturing and trading of kitchen sinks, bath products and other appliances” in accordance with the Ind AS 108 “Operating Segments”.

1.4 First-time adoption of Ind AS:

a. Transition to Ind AS

These are the Group’s first financial statements prepared in accordance with Ind AS.

The accounting policies as set out in note no. 1.3 above have been applied in preparing the financial statements for the year ended 31st March 2018, the comparative information presented in these financial statements for the year ended 31st March 2017 and in the preparation of an opening Ind AS balance sheet as at 1st April 2016 (the transition date). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in the financial statements prepared in accordance with the Accounting Standards notified under the Companies (accounting Standards) Rules, 2006 and other relevant provisions of the Act. An explanation of how transition from previous GAAP to Ind AS has affected the Group’s financial position, financial performance and cash flows is set out in the following tables and notes.

b. Exemption and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS, which are considered to be material and significant.

- (i) The Group has elected to measure items of property, plant and equipment at its Previous GAAP carrying value as on the date of transition to Ind AS except for certain class of assets which are measured at fair value as deemed cost.
- (ii) On assessment of the estimates made under the previous GAAP financial statements, the Group has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence of an error in those statements. However, estimates that were required under Ind AS

but not required under previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

- (iii) Under Ind AS, remeasurements of post-employment benefit obligations, i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expenses on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the Previous GAAP, these remeasurements were forming part of the statement of profit and loss for the year. There is no impact on the total equity.

- (iv) Under Ind AS, all items of income and expenses recognised in a period should be included in the statement of profit and loss for the period, unless a standard requires or permits otherwise. Items of income and expenses that are not recognised in profit or loss but are shown in the statement of profit and loss as ‘other comprehensive income’ includes remeasurements of defined benefit plans and tax effects thereon. The concept of other comprehensive income did not exist under the Previous GAAP.

c. Recent accounting pronouncements

Standards issued but not yet effective

In March, 2018 the Ministry of Corporate Affairs (MCA) issued the Companies (Indian Accounting Standards) Amendments Rules, 2018, notifying Ind AS 115, Revenue from Contract with Customers, Appendix B to Ind AS 21, Foreign Currency transactions and advance consideration and amendments to certain other standards. These amendments are applicable to the Company from 1st April, 2018. The Group will be adopting the amendments from their effective date.

- 1) Ind AS 115, Revenue from Contract with Customers:

Ind AS 115 supersedes Ind AS 11, Construction Contracts and Ind AS 18, Revenue. Ind AS 115 requires an entity to report information regarding nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with

customers. The principle of Ind AS 115 is that an entity should recognize revenue that demonstrates the transfer of promised goods and services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard can be applied retrospectively to each prior reporting period presented or can be applied retrospectively with recognition of cumulative effect of contracts that are not completed contracts at the date of initial application of the standard.

2) Appendix B to Ind AS 21, Foreign Currency Transactions and Advance Consideration:

The Appendix clarifies that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the asset, expense or income (or part of it) is the date on which an entity initially recognises the non-monetary liability arising from the payment or receipts in advance

consideration towards such assets, expenses or income. If there are multiple payments or receipts in advance, then an entity must determine transaction date for each payment or receipts of advance consideration.

The Group is in the process of making an assessment of these amendments.

d. Reconciliations between previous GAAP and Ind AS

The following reconciliations provide the explanations and quantification of the differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

- (i) Reconciliation of equity as reported under previous GAAP to Ind AS;
- (ii) Reconciliation of profit or loss and total comprehensive income as reported under previous GAAP to Ind AS; and
- (iii) Adjustments to statement of cash flows.

NOTES TO RECONCILIATION OF EQUITY AND STATEMENT OF PROFIT AND LOSS

- 1 The Group has considered fair value for property, viz. land as on transition date, i.e. 1st April 2016 with impact of ₹ 2,282.52 Lakhs in accordance with stipulations of Ind AS 101 with the resultant impact being accounted for in the reserves.
- 2 Under Ind AS, security deposits are valued at present value as compared to being carried at cost in the previous GAAP. This adjustment includes the difference between the book value and the present value of an interest free security deposits or security deposits below market rate given to subsidiary companies. The interest on the present value of this loan is recognized over the tenure of the loan using the EIR method.
- 3 Under Ind AS, the Group recognized the provision for expected credit loss as per the Expected Credit Loss (ECL) policy of the Group as set out in accordance with Ind AS 101. Differences in the provisions are adjusted under trade receivables.
- 4 Consequential tax impact of the other Ind AS transitional adjustments lead to temporary timing differences. Deferred tax adjustments are recognized in correlation to the underlying transaction either in retained earnings or through comprehensive income.
- 5 The Group recognizes the cost related to its post employment defined benefit plan on an actuarial basis both under previous GAAP and Ind AS. Under previous GAAP, entire cost including actuarial gains and losses and return on planned assets are charged to profit or loss. Under Ind AS, the actuarial gains and losses and returns on planned assets are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income.
- 6 Under the previous GAAP, dividends proposed by the Board of Directors after the balance sheet date but before the approval of the financial statements by the shareholders were considered as adjusting events. Accordingly, provision for proposed dividend was recognized as liability. Under Ind AS, such dividends are recognized when the same is approved by the shareholders in the general meeting. Accordingly, the liability of proposed dividend and dividend distribution tax thereon, included under provisions has been reversed with corresponding adjustment to retained earnings.
- 7 There are no material adjustments of transition to the statement of cash flows to conform to Ind AS presentation for the year ended 31st March, 2017.

Note 29

Financial risk management

The Group's activities expose it to credit risk, liquidity risk and market risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, financial assets and trade receivables	Credit ratings aging analysis, credit evaluation	Diversification of counter parties, investment limits, check on counter parties basis credit rating and number of overdue days
Liquidity Risk	Other liabilities	Maturity analysis	Maintaining sufficient cash/ cash equivalents and marketable securities
Market Risk	Financial assets and liabilities not denominated in INR	Sensitivity analysis	Constant evaluation and proper risk management policies

The Board provides guiding principles for overall risk management as well as policies covering specific areas such as foreign exchange risk, credit risk and investment of surplus liquidity.

A. Credit Risk

Credit risk refers to the risk of a counter party default on its contractual obligation resulting into a financial loss to the Company. The maximum exposure of the financial assets represents trade receivables, work in progress and receivables from group companies and others.

In respect of trade receivables, the Group uses a provision matrix to compute the expected credit loss allowances for trade receivables in accordance with the expected credit loss (ECL) policy of the Group. The Group regularly reviews trade receivables and necessary provisions, whenever required, are made in the financial statements.

B. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet its commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial assets quickly at close to its fair value.

The Group manages liquidity risk by maintaining adequate reserves and banking facilities by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

Contractual maturities of significant financial liabilities are as follows:

(₹ in Lakhs)

Particulars	Less than or equal to one year	more than one year	Total

Trade payables	3,291.32	-	3,291.32
Other financial liabilities	90.27	554.10	644.37

C. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

The Group has several balances in foreign currency and consequently, the Group is exposed to foreign exchange risk. The Group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

b) Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

(₹ in Lakhs)

Particulars	Increase/decrease in basis points	Effect of profit before tax

Note 30

Capital management

The Group's capital management objective is to maximise the total shareholder returns by optimising cost of capital through flexible capital structure that supports growth. Further, the Group ensures optimal credit risk profile to maintain/enhance credit rating.

The Group determines the amount of capital required on the basis of annual operating plan and long-term strategic plans. The funding requirements are met through internal accruals and long-term/short-term borrowings. The Group monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Group.

The following table summarises the capital of the Group:
